# ABOUT COMPANY

---

**Flexpocket company** specializes in the manufacture of souvenirs from eco-leather, felt and their combinations. The main assortment is made up of organizers for family documents, covers for passports, auto documents and certificates, covers for plastic cards and badges, table mats and folders for documents.

All products are made individually, with a unique design for each client. You can always choose the color and texture of the material from a huge range of options. A complete list of the company's products is available in our Catalog, and retail sales are carried out via Wildberries or Ozon.

We work on the technological equipment of the world's leading manufacturers, which allows us to bring to life your most daring and incredible ideas. In addition, you can entrust the design development to a team of our professionals. It can be bright and memorable or vice versa – restrained and laconic. Colors and paints will sparkle due to full-color digital printing and style, and rigor will show up by virtue of blind embossing. Moreover, we are ready to develop a new product that is not presented in our catalog, which would meet all your wishes. If you need something special, we are always happy to help!

**FLEXPCKET.RU**

**@FLEXPCKET**

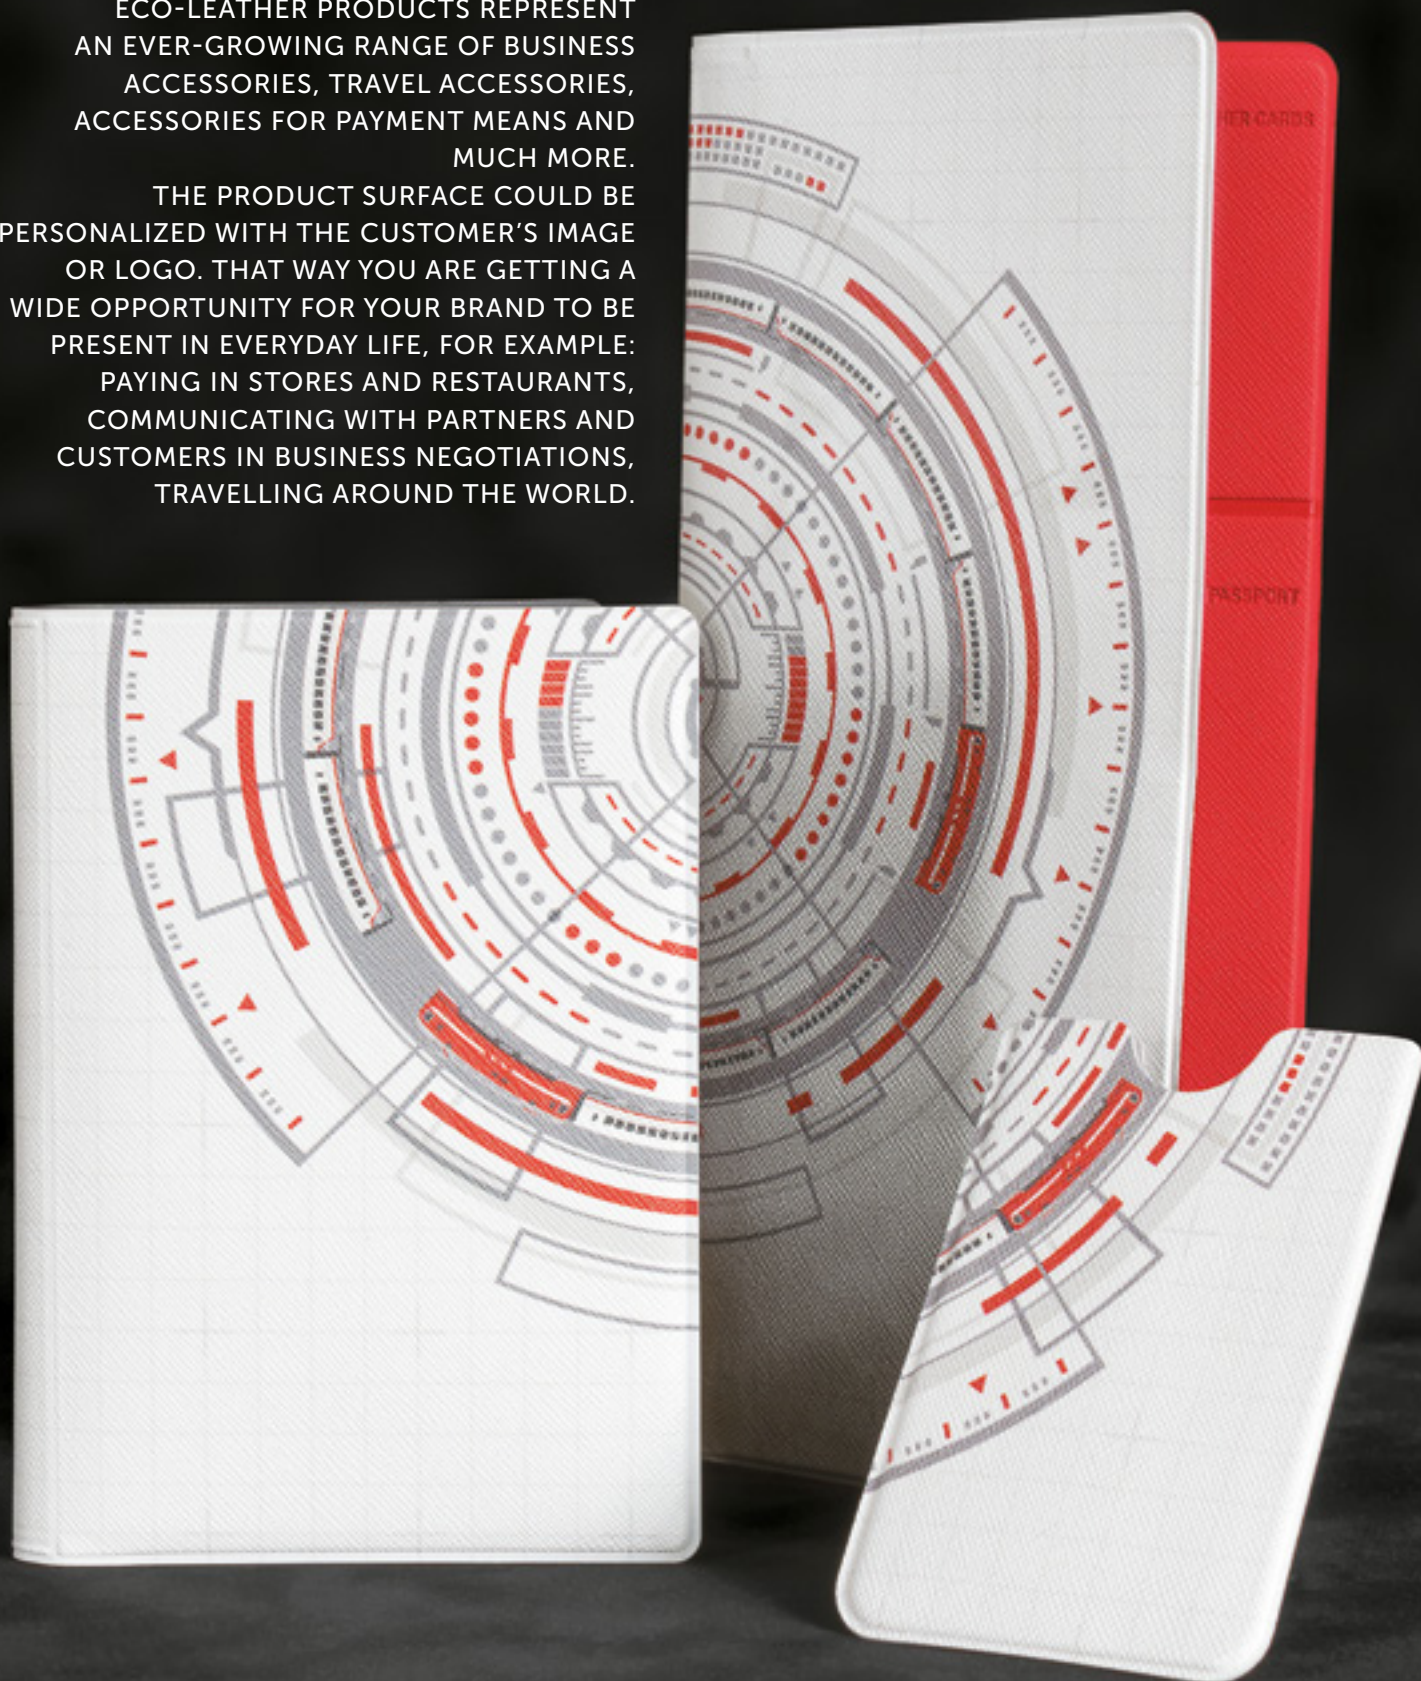

# ADD YOUR BRAND TO CLIENT'S DAILY LIFE!

ECO-LEATHER PRODUCTS REPRESENT AN EVER-GROWING RANGE OF BUSINESS ACCESSORIES, TRAVEL ACCESSORIES, ACCESSORIES FOR PAYMENT MEANS AND MUCH MORE.

THE PRODUCT SURFACE COULD BE PERSONALIZED WITH THE CUSTOMER'S IMAGE OR LOGO. THAT WAY YOU ARE GETTING A WIDE OPPORTUNITY FOR YOUR BRAND TO BE PRESENT IN EVERYDAY LIFE, FOR EXAMPLE: PAYING IN STORES AND RESTAURANTS, COMMUNICATING WITH PARTNERS AND CUSTOMERS IN BUSINESS NEGOTIATIONS, TRAVELLING AROUND THE WORLD.

# WHAT **ECO-LEATHER** IS?

Eco-leather is a type of new artificial leather which does not cause allergic reactions. The principle of its production is similar to the leather substitute, but environmentally friendly raw materials are used as components. Instead of PVC, polyurethane is used for the film coating, and cotton fabric serves as the basis.

Due to the inherent properties of polyurethane, eco-leather is very soft and pleasant by touch. Manufacturing technologies allow to repeat the pattern and texture of almost any natural leather, this eco-leather products will also look expensive and respectable at a reasonable price.

# MATERIALS

The range of materials is constantly expanding. The main advantage of this variety is the ability to combine textures and shades within the product design with virtually no restrictions creating unique compositions.

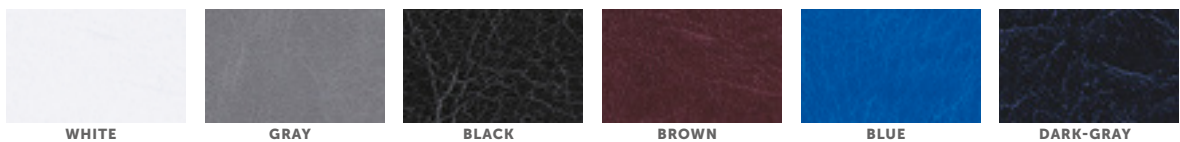

## ECO LEATHER "SAFFIANO"

Saffiano is a textured eco-leather. It is thanks to its texture with a diagonal shallow embossing that the material gains high strength and resistance to abrasion.

## ECO LEATHER "CLASSIC"

Manufacturing technology repeats the pattern and texture of genuine leather.

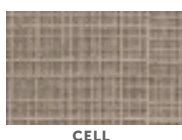

## ECO LEATHER "ITALY"

Series of high-quality leather with a metallic effect.

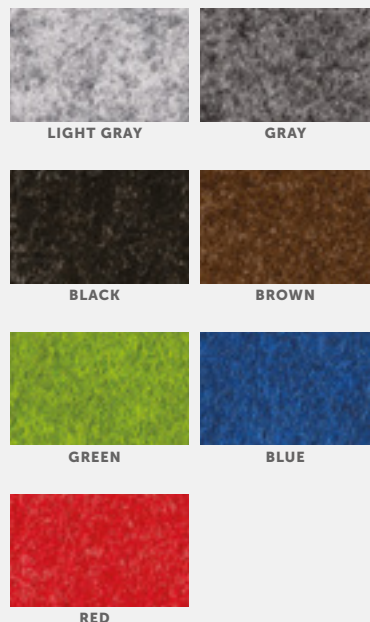

## ECO-LEATHER "TEX"

Series of high-quality eco leather with various texture patterns.

## FELT

Felt is a homogeneous, dense mass of felted fibers, mechanical origin.

## ECO LEATHER "SOFT TOUCH"

The peculiarity of this material lies in the creation of a special, pleasant to the touch surface, similar to velvet.

# TECHNOLOGIES

Eco-leather products acquire a full-blown status of an image product in combination with modern technologies of personalization and protection.

## DIGITAL PRINTING

Currently digital printing is one of the fastest and high-quality ways to materialize bright design ideas. Our state-of-the-art equipment allows to apply a full-color image of photographic quality to a white eco-leather, the varnish top coating protects against mechanical damage and significantly improves the appearance of the product.

## EMBOSSING

Blind embossing is applied to the colored eco-leather product without printing. You are able to choose 11 colors with the possibility of any combination. Along with the quality of the material, a flawlessly made overprint will emphasize the premiumness of the product as a daily used item, as well as advertising media.

## RFID BLOCKING

The method of blocking the reading of an RFID tag is based on the principle of shielding, when a material is placed between the reading and receiving device, which prevents the passage of the radio signal in both directions.

In our manufacture we use special metal plates, which are tightly sealed between the layers of the product and maximally protect the cards placed inside from being read in any way and from any side.

# CASES & HOLDERS

The most convenient solutions for storing and protecting plastic cards

## CASE FOR PLASTIC CARD

Stylish and modern accessory with fiber flock interior trim protects the card from mechanical damage, and extra RFID option does not allow intruders to withdraw the funds from your card.

WEIFGT	20 g
MOQ	50 pc.

# INDIVIDUAL PROTECTION MEANS

Caring for and paying attention to your employees, work colleagues or customers

## REUSABLE MASK

### AERO SILVER MASK

Prevents the spread of germs and improves the efficiency of using standard disinfectants. The anatomical shape of the mask provides a snug fit to the face, which increases the effectiveness of protection and the soft loops do not press on the ears during prolonged wear.

OUTER SIZE	170 x 145 mm
MOQ	50 pc.
ЦБЕТ	BLACK, GRAY, PINK, BRIGHT GREEN, DARK BLUE

## MASK HOLDER

Comfortable eco-leather drawstring ensures comfortable long-term wearing of the mask in conditions where it should be at hand. It is enough to fix the ears of the mask in the holders and wear it around the neck. If it is necessary you can put on the mask again.

OUTER SIZE	526 x 14 mm
WEIFGT	23 g
MOQ	50 pc.

# STORAGE COVER

## FOR REUSABLE MASK

Compact and practical dust-proof mask cover. Allows you to comfortably store the mask in your pocket, wallet, purse, etc. Protects the mask from dust and accidental tearing when taken out of the pocket.
